

## AVAILABLE INCENTIVES

Oncor offers the following Open incentives based on your peak electric demand.

- Customers with  $\leq 100$  kW demand up to \$800/kW saved
- Customers with  $\leq 10$  kW demand up to \$1,000/kW saved

## ELIGIBLE PROJECTS

Eligible energy efficiency measures include indoor lighting, outdoor lighting and refrigeration. The Program pays a higher percentage of project costs, as compared to other commercial energy efficiency programs. Incentives, actual savings, and payback periods vary depending on the equipment installed, building characteristics, energy use patterns, age of existing equipment, location, and other parameters specific to your project.

## ELIGIBLE MEASURES

- T12 to T8 lighting retrofits\*
- Low-flow faucet aerators
- LED lighting upgrades\*\*
- Occupancy sensor installations
- LED exit sign retrofits
- Anti-sweat heater controls for refrigerator doors
- And more!

*\*To be eligible for incentives, T8 system retrofits must meet the CEE specifications for High Performance or Reduced Wattage systems.*

*\*\*LED upgrades must be approved by either Design Lights Consortium or ENERGY STAR®.*

**IT'S YOUR BOTTOM LINE—  
TAKE CONTROL OF YOUR  
ENERGY CHOICES!**

**(855) 496-3857** to speak with  
a program representative or visit  
**[www.takealoadofftexas.com](http://www.takealoadofftexas.com)**.

Disclaimer: Products and services are provided solely by approved participating Service Providers. Oncor does not sell goods or services in its energy efficiency programs.

**YOU HAVE THE POWER TO  
LOWER YOUR ENERGY BILL**

Oncor Open offers energy saving solutions for Oncor small business customers!

**ONCOR.**  
TAKE A LOAD  
OFF, TEXAS

## THE PROGRAM OFFERS:

- No-cost, no-obligation facility assessment to identify potential energy-saving opportunities
- Recommendations and estimates for energy savings, project costs, and payback periods
- Installation of approved energy-saving equipment by a local, pre-qualified contractor
- Incentives paid directly to the contractor by the program to reduce your upfront cost
- Ongoing reduction in energy costs

## WHO IS ELIGIBLE?

Small commercial customers with:

- A valid Oncor account meter
- ≤100 kW peak demand at any one facility or a total demand of ≤250 kW at all facilities owned by the same customer within the Oncor service area

## LET'S GET STARTED.

1. Contact a participating contractor.
2. The participating contractor will schedule a no-cost walk through assessment of your facility.
3. Provide the contractor with your ESI ID number for eligibility verification purposes.
4. Upon your approval, the program's participating contractor will install savings measures.

## TYPICAL OPEN PROJECT SCENARIO:

Here's a hypothetical scenario that could take place at a small office building. Simulated existing conditions and sample proposed retrofits with energy saving and cost estimates are listed below and on the panel to the right.

This data illustrates how the program operates and its potential value, but is not necessarily indicative of what you may see at your site.

EXISTING INTERIOR LIGHTING	INTERIOR LIGHTING RETROFIT
34W 48in 4L T-12 (32 fixtures)	32W 48in 2L T-8 (32 fixtures)
60W 96in 2L T-12 (15 fixtures)	32W 48in 2L T-8 (15 fixtures)
34W 48in 1L T-12 (4 fixtures)	25W 48in 1L T-8 (4 fixtures)
